FEATURING

- Parallelogram style
- Precision ground table for perfect jointing
- Long 88" bed
- Powerful 3HP or 5HP Baldor™ motor prevents bogging
- Massive construction throughout gives stable vibration-free operation
- Wide base for stability

The Oliver 4260 12" Parallelogram Jointer comes standard with a helical carbide insert cutterhead which has been proven to virtually eliminate the tear out commonly produced by straight knife cutterheads. The parallelogram table design makes for smooth as glass and accurate height

adjustments. Our innovative rack and pinion style fence allows for quick and easy width adjustments and the use of large ratchet style levers and knobs make for easy angle adjustments. Add superior craftsmanship and you've got an Oliver built to last.

12 INCH JOINTER

The 4260: built the Oliver way.

Rack & pinion fence allows for quick & precise adjustments.

HELICAL CUTTERHEAD

Long-lasting quad-sided solid carbide knives greatly reduce cutterhead noise. Each indexable knife is sharpened on all sides, so just give them a spin and they're as good as new with no knife setting required!
