## FEATURES

- Triangular design frame provides superior column rigidity
- Foot brake for rapid stops
- 2-speed poly v-belt drive
- 12-1/4" Resaw capacity for cutting large pieces of wood, slicing veneers and cutting book matched panels
- 21" x 21" precision ground cast iron table for added stability and work support
- 4" dust port allows for direct connection of dust collection system
- 8-spoke band wheels computer balanced to spin true without vibration
- Upper and lower ball bearing, micro-adjustable blade guides for proper support during the cut of different size boards
- Quick release blade tensioning with three settings for ultimate convenience. One setting to release cutting tension and a second release setting for blade change
- Tool-less, independently adjustable ball bearing guide system for quick and easy adjustments and smooth operation
- Rigid, heavy-duty guide post with rack and pinion adjustment for extra blade support
- All cast iron handwheels make smooth, easy blade adjustments with less effort
- 3/4", 4 TPI woodworking blade is included so you can start cutting right away
- Extra large cast trunnion for better support and stability
- Independent dual locking cabinet doors allow access to blade when necessary
- Blade tension scale allows precise blade tensioning
- Single knob tracking adjustment simplifies the blade tracking process
- Exclusive quick-release, precision T-square style rip fence with resaw post
- Blade tracking window and light colored tire provide clear view of blade during tracking

## SPECIFICATIONS

Stock Number	708754B	708755B
Model Number	JWBS-20QT-3	JWBS-20QT-5
Cutting Capacity (W/in.)	20	20
Cutting Capacity (H/in.)	12-1/4	12-1/4
Min. Saw Blade (W/in.)	1/8	1/8
Max. Saw Blade (W/in.)	1-1/2	1-1/2
Blade Length (in.)	150	150
Table Size (LxW/in.)	21 x 21	21 x 21
Table Tilt (deg.)	45 R, 10 L	45 R, 10 L
Table Height From Floor (in.)	36-1/8	36-1/8
Dust Port Diameter (OD/in.)	4	4
Dust Collection Minimum CFM	400	400
Stand Type	Closed	Closed
Wheel Diameter (in.)	20	20
Blade Speed (SFPM)	2000/3000	2000/3000
Motor Amps	13	13
Motor HP	3HP	5HP
Motor Phase	1Ph	1Ph
Motor Voltage	230V	230V
Prewired	230V	230V
Net Weight (lbs.)	550	550

## OPTIONAL ACCESSORIES

Bandsaw Blades	

Blades

- A.** Blade Guide Height Adjustment
- B.** Precision Roller Bearing Blade Guides
- C.** Miter Gauge
- D.** 4" Dust Port
- E.** Foot Break
- F.** Dual Tapered, One-Piece Steel Support Column
- G.** Precision T-Style Fence with Resaw Post
- H.** Blade Tension Handwheel
- I.** Direct-Reading Blade Tensioning Scale
- J.** Quick Tension Release Handle

## FEATURES

- Triangular design frame provides superior column rigidity
- 12-1/4" Resaw capacity for cutting large pieces of wood, slicing veneers and cutting book matched panels
- 19" x 19" precision ground cast iron table for added stability and work support
- 4" dust port allows for direct connection of dust collection system
- Precision computer balanced wheels eliminate vibration for accurate blade tracking
- Quick release blade tensioning with three settings for ultimate convenience. One setting to release cutting tension and a second release setting for blade change
- Upper and lower ball bearing, micro-adjustable blade guides for proper support during the cut of different size boards
- Tool-less, independently adjustable ball bearing guide system for quick and easy adjustments and smooth operation
- 8-spoke band wheels computer balanced to spin true without vibration
- Rigid, heavy-duty guide post with rack and pinion adjustment for extra blade support
- All cast iron handwheels make smooth, easy blade adjustments with less effort
- 3/4", 4 TPI woodworking blade is included so you can start cutting right away
- Blade tracking window and light colored tire provide clear view of blade during tracking
- Independent dual locking cabinet doors allow access to blade when necessary
- Blade tension scale allows precise blade tensioning
- Single knob tracking adjustment simplifies the blade tracking process
- Exclusive quick-release, precision T-square style rip fence with resaw post

- A.** Blade Guide Height Adjustment
- B.** European-Style Blade Guides
- C.** 4" Dust Ports
- D.** Dual Tapered, One-Piece Steel Support Column
- E.** Blade Tension Handwheel
- F.** Direct-Reading Blade Tensioning Scale

## FEATURES

- Triangular design frame provides superior column rigidity
- 10" resaw capacity for cutting large pieces of wood, slicing veneers, cutting book matched panels
- 17" x 17" cast iron table supports your work material
- Adjustable rear support for wider footprint and more stability
- 4" dust port allows for direct connection of dust collection system
- Precision computer balanced wheels eliminate vibration for accurate blade tracking
- Micro-adjustable lower blade guide reduces friction for longer blade life
- European style adjustable carbide blade guides
- 8-spoke band wheels computer balanced to spin true without vibration
- Rigid, heavy-duty guide post with rack and pinion adjustment for extra blade support
- All cast iron handwheels make smooth, easy blade adjustments with less effort
- 3/8", 6 TPI woodworking blade is included so you can start cutting right away
- Direct-reading scale lets you select blade tension for widths up to 1-1/4"
- Independent dual locking cabinet doors allow access to blade when necessary
- Single knob tracking adjustment simplifies the blade tracking process
