

660GC Concrete Chain Saw

PORTABLE AND AFFORDABLE VERSATILITY

The 660GC concrete chain saw is an affordable, light-duty workhorse. The sturdy 64 cc engine, with advanced rear-ported, multi-chamber air filtration and highly refined carburetion and ignition systems working together to ensure easy starting, cooler operation and dependable performance, cranks out more than enough power to make plunge cuts up to 10 inches deep in concrete, stone and masonry. An expert tool at an entry level price, weighing in at 18.2 lbs, the 660GC is a handy member of any crew.

PERFECT FOR SMALL JOBS:

Doorways

Egress Windows

AC Units

Pipe Splices

FEATURES & BENEFITS

- Cuts stone, masonry and even reinforced concrete
- Plunge cut up to 10"
- Lightweight at only 18.2 lbs
